

# DIY Glass Cleaner

100% EASY

Why pay retail for simple ingredients in a specialized plastic spray bottle? When your old bottle of window cleaner goes empty, print and apply this label, and refill with these ingredients in this order:

- 3 tbsp. vinegar or lemon juice (substitute with 2 tbsp. of ammonia cleaner if you prefer)
- 1/2 cup alcohol (no, not booze)
- 1/4 tsp. dish washing liquid
- 3 drops blue food coloring (to discourage drinking)
- fill container to top with tap water

That's it - Enjoy your recycled life and new clean windows! We suggest using newspaper with this product for best results.
